

2. Free of charge Internet access for University users outside the University Campus

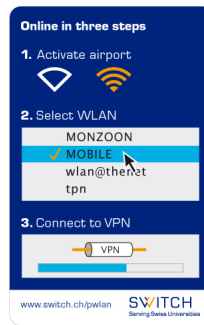

In order to use a partner hotspot, you will require the Cisco VPN client of the University of St. Gallen, as well as a WLAN-capable PC. Start your WLAN connection and search for the available WLAN networks (see figure PC or MAC respectively).

Select a PWLAN partner* and then connect. Then start the VPN client and logon using your HSG username and password.

The free of charge Internet access is now available for use.

PC

MAC

PWLAN partner* information

All PWLAN partners* offer a „hotspot locator“ on their website. By entering your postal code or location, the hotspot locations will be shown.

*PWLAN partners: Monsoon, Swisscom, TheNet, TPN (as of 08/09)

PWLAN locations (selection)

Monsoon:	Airports, McDonalds in Switzerland, AFG Arena, Burger King
Swisscom:	Airports, SBB Train Stations, SBB Business Zones First Class, Hotels, OLMA
