

## Crediting request for the compulsory Master courses in PEcon

Three compulsory Master courses are part of the PEcon curriculum. Applicants may request crediting the compulsory Master courses. Detailed information about Master's courses attended at home university which are similar to the courses listed below (content of the courses, number of ECTS credits, reading lists, type of examination, etc.) should be uploaded in a **PDF file**. If the submitted information or the material covered in similar Master courses taken at home university is considered to be insufficient, then the student will have to take these compulsory Master courses.

Compulsory Master courses, **Economics** specialization:

- [7,256: Advanced Microeconomics II: Incentive Theory](#),
- [7,254: Advanced Macroeconomics II: Asset Prices, Fluctuations and Unemployment](#),
- and one of the following: [8,314: Time Series Econometrics](#) or [8,312: Microeconomics](#) or [8,310: Asset Pricing](#) or [8,318: Financial Volatility](#).

Compulsory Master courses, **Econometrics** specialization:
